As a scooter zips by, inside the waiter rushes between the tables as the nervous young man gets ready to propose with the ring! It's just as hectic behind the scenes, with the chef busily preparing the food. This beautifully detailed building is the setting for so many stories and is a great addition to the modular building series. The Parisian Restaurant has a fully-stocked, blue and white tiled kitchen with tableware as well as a cozy apartment with pull-down bed, kitchenette and fireplace. On the top floor is the artist's room with a studio that includes a cast iron heater, easel, paintbrush and two works of art by the aspiring artist. Outside, stairs lead down to the roof terrace lined with hanging lanterns and flowers where the diners eat alfresco-style. This amazing Parisian Restaurant model even includes a facade with croissants, clams and feather details that recapture the feel of Paris. Includes 5 minifigures: chef, waiter, girl and a romantic couple.Includes 5 minifigures: chef, waiter, girl and a romantic coupleAlso includes a rat and 2 clamsKitchen features blue and white tiled floor, lots of kitchen units and a variety of utensilsSecond-floor apartment features a pull-down bed, kitchenette and fireplaceTop floor features an opening roof revealing an artist's studio with heater, easel, paintbrush, palette and artworkIncludes lots of food items for the customers including croissants, a pie, 2 cupcakes, 2 grapes, 2 hotdogs, turkey, cheese wedges, milk carton and colored bottlesAlso includes hard-to-find white croissants and bricks in olive green, dark blue and dark redIntricate exterior details include facade with croissant detailing, bus stop, sidewalk, scooter and even a dumpster and trash can at the backPut up the printed restaurant sign and menu to entice the customers inCollect and build an entire town with the LEGO® Modular Buildings collection: 10224 Town Hall and 10232 Palace Cinema!Measures over 11" (30cm) high, 9" (25cm) long and 9" (25cm) wideThe manufacturer suggests this set for ages 16+.No reviews yet. If you run into any issues, please refer to the online troubleshooting guide. To ensure a trouble-free installation of your light kit, please read and follow each step carefully. These instructions can be downloaded in PDF format here Please note: This page lists instructions for the LED light kit only. If you are wishing to purchase the Light My Bricks LEGO Parisian Restaurant (10243) LED Lighting Kit, please click here to view the product page Package contents: 4x White Strip Lights 9x White 30cm Bit Lights 1x LEGO Lamp Post With LED Installed 1x 8-port Expansion Board 1x 6-port Expansion Board 1x USB Power Cable 3x 15cm Connecting Cable 2x 30cm Connecting Cable 4x Adhesive squares LEGO Pieces: 4x 1×6 Plate (any colour) Wireless Power Connectors (sold separately) If you wish to install the Light My Bricks Wireless Power Connectors in between floors (sold separately), please scroll to the bottom of the page to view the instructions. You will require the following extra parts (sold separately) 1x Wireless Power Connectors (2pk) 1x 6-Port Expansion Board 2x LEGO Plate 1×6 (any colour) Laying cables in between and underneath bricks Cables can fit in between and underneath LEGO® bricks, plates, and tiles providing they are laid correctly between the LEGO® studs. Do NOT forcefully join LEGO® together around cables; instead ensure they are laying comfortably in between each stud. CAUTION: Forcing LEGO® to connect over a cable can result in damaging the cable and light. Connecting cable connectors to Expansion Boards Take extra care when inserting connectors to ports of Expansion Boards. Connectors can be inserted only one way. With the expansion board facing up, look for the soldered "=" symbol on the left side of the port. The connector side with the wires exposed should be facing toward the soldered "=" symbol as you insert into the port. If a plug won't fit easily into a port connector, do not force it. Incorrectly inserting the connector can result in bent pins inside the port or possible overheating of the expansion board when connected. Connecting cable connectors to Strip Lights Take extra care when inserting connectors to ports on the Strip Lights. Connectors can be inserted only one way. With the Strip Light facing up, ensure the side of the connector with the wires exposed is facing down. If a plug won't fit easily into a port connector, don't force it. Doing so will damage the plug and the connector. Connecting Micro Cable connectors to Micro Expansion Board Ports Take extra care when inserting the micro connectors to micro ports of Micro Expansion Boards. Connecting Micro Bit Lights to Micro Expansion Boards is similar to connecting lights and cables to Strip Lights. With the expansion board facing up, ensure the side of the connector with the wires exposed is facing down. If a plug won't fit easily into a port connector, do not force it. Use your fingernail to push the plastic part of the connector to the micro port. Installing Bit Lights under LEGO® bricks and plates. When installing Bit Lights under LEGO® pieces, ensure they are placed the correct way up (Yellow LED component exposed). You can either place them directly on top of LEGO® studs or in between. OK, Let's Begin! 1.) 2.) 3.) Note: If you experience any issues with the lights not working and suspect an issue with a component, please try a different port on the expansion board to verify where the fault lies (with the light or expansion board). To correct any issues with expansion board ports, please view the section addressing expansion board issues on our online troubleshooting guide. 4.) 5.) Note: If you experience any issues with the lights not working and suspect an issue with a component, please try a different port on the expansion board to verify where the fault lies (with the light or expansion board). To correct any issues with expansion board ports, please view the section addressing expansion board issues on our online troubleshooting guide. 6.) 7.) 8.) 9.) Note: If you experience any issues with the lights not working and suspect an issue with a component, please try a different port on the expansion board to verify where the fault lies (with the light or expansion board). To correct any issues with expansion board ports, please view the section addressing expansion board issues on our online troubleshooting guide. 10.) 11.) 12.) 13.) Note: If you experience any issues with the lights not working and suspect an issue with a component, please try a different port on the expansion board to verify where the fault lies (with the light or expansion board). To correct any issues with expansion board ports, please view the section addressing expansion board issues on our online troubleshooting guide. 14.) 15.) 16.) 17.) 18.) 19.) Note: If you experience any issues with the lights not working and suspect an issue with a component, please try a different port on the expansion board to verify where the fault lies (with the light or expansion board). To correct any issues with expansion board ports, please view the section addressing expansion board issues on our online troubleshooting guide. This finally completes installation of the Light My Bricks Parisian Restaurant 10243 Light Kit. We thank you for purchasing this product and hope you ENJOY! Wireless Power Connectors (sold separately) Follow the below instructions if you wish to install the Light My Bricks Wireless Power Connectors in between floors. You will require the following extra parts (sold separately) 1x Wireless Power Connectors (2pk) 1x 6-Port Expansion Board 2x LEGO Plate 1×6 (any colour) 1.) 2.) 3.) 4.) 5.) < END > These are the instructions for building the LEGO Creator Parisian Restaurant that was released in 2014.
